

COUNTRY	ORGANIZATION	SUMMARY OF INTERNSHIP
Bangladesh	CARE	Conduct research on how to better incorporate Cash-Based Initiatives for emergency response programming.
Brazil	Tellus	Develop and implement a monitoring and evaluation system for a consulting firm specializing in the design of public services for municipalities using a human centered design approach.
Cambodia	Vishnu Law Firm	Design M&E system for public interest casework on defending indigenous communities from land encroachment. Create database to collect information for M&E.
Chile	Coca-Cola Foundation	Analyze viable ways to transfer best practices from Coca Cola Brazil's Coletivo to other Latin American countries with a special focus on the 5by20 initiative.
Costa Rica	Coca-Cola Foundation	Assist the Public Affairs and Communications team by developing an implementation plan for physical activity programs in the Caribbean, crafting a communications strategy for community development projects in Haiti, and advising on nutrition-related communications.
Egypt	Microsoft	Support expansion of Microsoft's youth workforce development activities to underserved groups in rural Egypt and form public-private partnerships.
Ethiopia	USAID	Promote private sector investment in both the on and off grid renewable energy sector for Power Africa.
India	Accion Technical Advisors	Conduct desk and field research on disability inclusion in the microfinance industry, create client stories, best practices and recommendations based on several pilots, and assist in writing proposals for the next phase of project.
Indonesia	Mercy Corps	Conduct research and analysis of the major challenges that various stakeholders face in planning, implementing, and sustaining urban climate change resilience programs in Indonesia.
Jordan	Middle East Children's Institute	Provide overall support to the NGO's informal education program for Syrian refugees in Jordan and after-school program in the West Bank. Develop proposals for expansion of the NGOs programs.
Liberia	Ministry of Commerce and Industry	Support the launch of the Small Business Administration and Empowerment Act.
Liberia	Department of Education	Provide additional support during the transition of a new administration; lead prioritization exercise across the Ministry's different departments to set future strategy; and support the reorganization of the education system post-Ebola.
Mali	Agro-Pro	Negotiate broader partnership with Orange telecom to support expansion and reduce costs; and develop new models for managing vendors to improve sales, data quality and ability to scale.
Mozambique	Technoserve	Manage the rollout of the MozaCaju grants program for medium-sized grants for cashew farmers and producers in northern Mozambique.
Myanmar	Red Cross	Collect case studies on a disaster risk reduction project in the disaster prone Delta region.
Peru	Grassroots Business Fund	Review and improve existing quantitative social impact reporting methods and introduce a qualitative assessment process to better understand the role of impact investments and portfolio companies on low income stakeholders.
Philippines	USAID	Provide project oversight and support to the Office of Economic Development and Governance.
Singapore	Impact Investment Exchange	Conduct research on capital needs of small and growing businesses in the Southeast Asia region and oversee impact assessments of two early stage social enterprises.

COUNTRY	ORGANIZATION	SUMMARY OF INTERNSHIP
Tajikistan	Save the Children	Support Women's Wealth and Influence Program through donor reporting, communications and monitoring and evaluation.
Thailand	USAID	Support the M&E department in developing the tools to conduct an institutional assessment and impact evaluation of USAID COMET.
Uganda	Living Goods	Design and implement a pilot program to test penetration of Pay-As-You-Go solar lighting in peri-urban communities. Research alternate revenue streams for network of micro-entrepreneurs.
Washington, DC	Global Partnership for Education	Perform statistical analysis: analyze education trends in GPE developing country partners, forecast trends of education indicators and provide analysis for policy briefs, and provide technical support to the country support team.
Zambia	Save the Children	Conduct field-based research to advise on ways to increase the rigor and utility of global Quality Learning Environments indicators used by Save the Children practitioners and researchers.
